

ELINOR WONDERS WHY

EW118 INTERSTITIAL: SENOR TAPIR - STEPHEN BISHOP

Written by

Robert Sams

Follows "Follow That Rollie Pollie".

Curriculum: The kids learn that Stephen Bishop was an explorer who found new areas underground in Mammoth Cave, and discovered eyeless fish living in the cave's underground river!

Learning Goals:

SEPl.a. Asking Questions

LS8. There are many different kinds of living things

First Draft: 03-July-19

1. EXT. FOREST - DAY

Señor Tapir sits on a tree root with his guitar. Nearby, Elinor, Olive and Ari crouch low near the base of a tree to stare down a hole in the ground. The hole's almost (but not quite) big enough for Elinor to crawl down.

1	OLIVE	1
	(sticking her trunk slightly into the hole) Wow! That's a big hole. (echo voice) HELLOOOO!	
2	ARI	2
	What do you think is down there?	
3	ELINOR	3
	Maybe it's somebody's home.	
4	SEÑOR TAPIR	4
	Es posible. There's a whole world living beneath our feet. This reminds me of a man named Stephen Bishop who once explored a deep cave and found some amazing animals living underground.	

Señor Tapir starts strumming his guitar and singing.

2. EXT. MAMMOTH CAVE, KENTUCKY - DAY

The scene dissolves to the entrance of Mammoth Cave.

5	SEÑOR TAPIR	5
	(singing) In the middle of Kentucky, there's a hole in the ground Called Mammoth Cave, and it leads down To the biggest bunch of caves the world's ever seen.	

Stephen Bishop (a mountain lion) enters the mouth of the cave. He has black hair and a long mustache and is wearing a chocolate-colored slouched hat, a green jacket and striped trousers. He holds a flickering lantern as he enters a cave room filled with stalactites and crystals on the cave walls. He then sits at a table and draws a branching map of Mammoth Cave.

(MORE)

SEÑOR TAPIR (CONT'D)

There's a legendary man who dared
to explore,
More of the cave than anyone
before,
He was the first to map the whole
entire thing.

Stephen Bishop crawls across a ladder over a dark chasm. He
climbs down a rope to a cave floor.

Stephen Bishop wanted to know,
How far Mammoth Cave could go,
So he went down underground,
And that is when he found
Surprises in the caves down below.

Stephen Bishop squeezes through narrow passages, carrying a
lantern with a rope coiled over his shoulder. He disappears
into darkness.

He explored by rope and lantern
light,
Through narrow spaces dark and
tight,
And left the world of sunlight far
behind.

He emerges from the darkness as his lantern light illuminates
a river in a cave. He shines his light closer to the water
and sees little white fish. An underwater view of the fish
shows that they have no eyes.

He discovered a river, and what a
surprise,
He found some fish that had no
eyes!
But they were swimming around just
fine!

More scenes of Stephen Bishop crawling down narrow caves.

Stephen Bishop wanted to know,
How far Mammoth Cave could go,
So he went down underground
And that is when he found
Surprises in the caves down below.

3. EXT. FOREST - DAY

Señor Tapir finishes his song.

6 ELINOR 6
Fish with no eyes! That's amazing!
Just think of what awesome
creatures could be down this hole.

Suddenly, a big pile of dirt pushes up from the hole and Mz.
MOLE pops out, sticking half way out of the ground.

7 MZ. MOLE 7
Has anyone seen my glasses?

Her glasses are hanging around her neck.

8 OLIVE 8
(giggling)
They're around your neck, Mz. Mole.

Mz. Mole laughs as she puts them on.

9 MZ. MOLE 9
(laughing)
Ahh. That's better!

THE END.
