

# ELINOR WONDERS WHY

EP 135 Follow That Rollie Pollie

By Katherine Sandford

**Elinor's Question:** Where can we explore without going very far?  
OR Where does a Rollie Pollie live?

**Logline:** The Exploring Club wants to explore some place really cool, and they end up exploring under a log.

**Curriculum Goals:** LS5. Begin to understand that animals and plants depend on other living things and nonliving things in the environment to meet some of their needs (Elinor and her friends realize the Rollie Pollie and the other animals depend on the ecosystem under the log to survive).

ES3. Understand that things people do to live comfortably can affect the world around them, but they can make choices that reduce their impacts on the land, water, air, and other living things: (Elinor and her friend learn that they disturbed the ecosystem under the log when they moved it)

ND4. (RTL Crosscutting concept 'Flows, Cycles, and Conservation'): Appreciate the way that elements in the natural world change, interact and are re-used, and how we can organize our designed world to better fit and care for the environment. (Elinor and her friends realize they should put the log back into place to protect t animals in Log Town)

SEP5. Using mathematics and computational thinking

a. Using counting and numbers to describe and compare quantitative attributes of objects

b. Sort and categorize observable phenomena based on attributes

c. Use mathematical language and vocabulary to describe attributes (Elinor and her friends count and classify the bug they find).

**CROSS-CUTTING CONCEPT:** Scale and proportion. (Elinor and her friends observe how things look from a Rollie Pollie's perspective).

**Mains:** Elinor, Ari, Olive, Tito. **Secondary:** Sally

**Locations:** Explorer's Clubhouse, Forest, under the log

**Props:** magnifying glass, Nature Book, Rollie Pollie, Assorted worms, centipedes, ants and spiders that live under the log.

|   | All right Explorers, it's time for<br>the Explorers' pledge. |   |

Through the window we see her, OLIVE, ARI, SALLY and TITO start reciting their pledge with hand-gestures.

|   |                                                       |   |   |

|   | An Explorer is brave, an Explorer<br>is kind...       |   |   |
|   | (We PUSH IN through the<br>window...)                 |   |   |
|   | An Explorer is CURIOUS, who knows<br>what we'll find! |   |   |

|   |                                    |   |   |
|---|------------------------------------|---|---|
| 3 | ELINOR                             | 3 |   |
|   | Welcome, Explorers! Today, we have |   | * |
|   | Explorer Olive, Explorer Ari,      |   | * |
|   | Explorer Sally, Explorer Tito and  |   | * |
|   | me, Explorer Elinor.               |   | * |

The kids all cheer <WHOO-HOO> then...

|   |                                                                                 |   |
|---|---------------------------------------------------------------------------------|---|
| 4 | TITO                                                                            | 4 |
|   | Ooooh, I can't WAIT to be a real<br>EXPLORER - I'll be brave and kind<br>and... |   |
|   | (a little hesitantly)                                                           |   |
|   | Uuhhmm. What does curious mean?                                                 |   |

|   |                                                                                        |   |   |
|---|----------------------------------------------------------------------------------------|---|---|
| 5 | ELINOR                                                                                 | 5 | * |
|   | Good question, Tito. Curious means<br>you really want to find out about<br>new things. |   |   |

|   |                                                                             |   |
|---|-----------------------------------------------------------------------------|---|
| 6 | OLIVE                                                                       | 6 |
|   | Yep, we explorers are verrrrrry<br>curious, so we ask lots of<br>questions. |   |

|   |                         |   |   |
|---|-------------------------|---|---|
| 7 | TITO                    | 7 |   |
|   | Oooh...                 |   |   |
|   | (he thinks)             |   |   |
|   | What kind of questions? |   | * |

|   |                                                        |   |   |
|---|--------------------------------------------------------|---|---|
| 8 | ARI                                                    | 8 |   |
|   | Any kind of question - like the one<br>you just asked. |   | * |
|   |                                                        |   | * |

9 TITO 9  
 Oh.  
 (he thinks, then)  
 Yay me! \*

Olive and Ari high-five Tito <SFX: WAY TO GO WALLA>.

10 ELINOR 10  
 Okay, Explorers, now that we've  
 said our pledge it's time for the  
 best part of the Club - EXPLORING!!  
 Follow me! \*

The kids follow Elinor out the door.

**EXT. EXPLORERS CLUBHOUSE - DAY**

11 TITO 11  
 (excitedly)  
 This is soo exciting!! Where are we  
 going to explore today?

12 ELINOR 12  
 Hmm, well, that depends on what we  
 want to see. \*

13 OLIVE 13  
 I'd like to see some interesting  
 new plants.

14 ARI 14  
 I want to see cool new animals,  
 like lizards or bugs. \*

15 SALLY 15  
 I just want to find some sticks. \*

16 ELINOR 16  
 Well, I want to be like the GREAT  
 explorers, exploring the sea.  
 (THOUGHT BUBBLE: we see  
 Elinor at the mast of an  
 exploring ship...)  
 Or a jungle  
 (THOUGHT BUBBLE: We see  
 her trekking through a  
 jungle! )  
 Or even a new city!!

THOUGHT BUBBLE: We see her coming upon a teeming new  
 civilization, with big skyscrapers and traffic - or maybe an  
 ancient city? Whatever looks good. \*

17                                 ARI                                 17

Uhh, Elinor. I don't think we can  
go THAT far.

18 OLIVE 18  
Yeah, your Mom said we're supposed  
to stick around the woods near the  
Clubhouse.

Elinor's THOUGHT BUBBLE bursts.

19                                ELINOR                                19  
                    (a little disappointed)  
Oh, yeah, you're right...<SIGH>  
                    (brightening)  
But we can still explore - come on.

The Explorers follow Elinor into the woods. \*

|    |                                |    |   |
|----|--------------------------------|----|---|
| 20 | ELINOR, OLIVE, ARI, TITO       | 20 | * |
|    | (sing-song)                    |    | * |
|    | Let's go exploring, exploring, |    | * |
|    | exploring...                   |    | * |

**EXT. FOREST GLADE (NEAR THE CLUBHOUSE) - DAY**

CLOSE ON: Ari. \*

|    |                              |    |   |
|----|------------------------------|----|---|
| 21 | ARI                          | 21 |   |
|    | (sing-song)                  |    | * |
|    | Let's go exploring - whoops! |    | * |

At that moment Ari accidentally stomps on the end of a stick, which has a little Rollie Pollie crawling on the other end.

ANGLE ON: The force of Ari's stomp sends the Rollie Pollie flying through the air.

ECU/SLO MO maybe we can see the little creature roll up into a ball, but the kids don't notice yet. Now a ball, the Rollie Pollie gently bonks Ari on the head before rolling to the ground.

22                                 ARI (CONT'D)                                 22  
Huh? Something hit me!

Ari looks down as Olive, Tito and Sally gather around. Elinor keeps marching.

23                                 OLIVE                                 23  
I saw it! I think it was that \*  
little rock.

Olive points.

24 ARI 24  
Yep that must be it.

ANGLE ON: Elinor, still marching along, realizes no one is following her anymore.

25                                 ELINOR                                 25  
Where'd everybody go?  
    (turning)  
What are you all looking at?

A rock.

OLIVE

27                                 ELINOR                                 27

A rock? Really? Come on guys, we don't have time to look at rocks, we have to keep exploring!

28                               ARI                               28  
Yeah, but this is a really cool  
rock, Elinor, look.

Elinor hurries back to see the rock. **SCIENCE ECU** - Ari has the rolled up Rollie Pollie in the palm of his hand.

29                                ELINOR                                29

Ooooooh, you're right, Ari. I've never seen a rock like this one before.

(pointing to the rock)

It's tiny and perfectly round and has these lines on it.

At that moment the Rollie Pollie uncurls itself.

|    |                              |    |
|----|------------------------------|----|
| 30 | ARI                          | 30 |
|    | Wait a minute - is this rock |    |
|    | MOVING?                      |    |

WIDEN: The kids consider this exciting development.

31 OLIVE 31  
I thought rocks don't move, do  
they?

32 ELINOR 32  
We need MORE observations.

Olive takes the magnifying glass out of her satchel and holds it up. \*

MAGNIFYING POV: The Rollie Pollie is on its back and we can see its legs wiggling. NOTE: Although it looks less like a rock now, I think we can keep the conceit until line 40.

\*

33 ELINOR (CONT'D) 33  
<GASP!> It has LEGS!

34 ARI 34  
Really? Cool!

Olive leans in close to count the legs.

\*

35 OLIVE 35  
One, two three four five six SEVEN  
pairs of legs - to be exact.

WIDEN: Meanwhile Tito seems a bit nervous.

\*

36 TITO 36  
(nervously)  
A rock with legs? I'm scared.

\*

37 OLIVE 37  
You don't have to worry, Tito.  
Explorers are brave, remember?

Olive puts her arm around Tito. He perks up.

38 TITO 38  
(brightening)  
Oh yeah.

Meanwhile, Elinor is entranced by the Rollie Pollie which has now flipped over and is crawling around on Ari's hand.

39 ELINOR 39  
You know what, I don't think this  
is a rock at all. It looks like  
some kind of bug.

\*

40 ARI 40  
Cooooool.

41 OLIVE 41  
Hmmm. Let me check my Nature Book.  
(she hands the magnifying  
glass to Elinor then  
takes out her Nature Book  
and leafs through)  
OK, so...Chimpanzees, Cows,  
Crayfish, Here we go - Creepy  
Crawlies.....

\*

\*

\*

ANGLE ON: a drawing of a bunch of different animals that live under a log (who we will meet later): millipede, slug, worm, ant, spider, beetle and a Rollie Pollie. Olive points to it.

|    |                                     |    |   |
|----|-------------------------------------|----|---|
| 42 | OLIVE (CONT'D)                      | 42 |   |
|    | It says here bugs have six legs, so |    | * |
|    | this can't be a bug. Oh! It looks   |    | * |
|    | like we found a Rollie Pollie!      |    |   |
|    | Listen to this. Rollie Pollies, or  |    |   |
|    | Pill Bugs, actually aren't bugs at  |    | * |
|    | all. They're the same kind of       |    | * |
|    | animal as crabs or lobsters.        |    |   |

|    |                                   |    |  |
|----|-----------------------------------|----|--|
| 43 | ELINOR                            | 43 |  |
|    | Really? That is sooo interesting. |    |  |

|    |                                  |    |  |
|----|----------------------------------|----|--|
| 44 | OLIVE                            | 44 |  |
|    | And it says here that Rollie     |    |  |
|    | Pollies roll up into a ball to   |    |  |
|    | protect themselves when they are |    |  |
|    | feeling nervous.                 |    |  |

All the kids <SFX: OOOOH WALLA> Meanwhile Ari is starting to squirm. \*

|    |                                  |    |  |
|----|----------------------------------|----|--|
| 45 | ARI                              | 45 |  |
|    | (giggling)                       |    |  |
|    | YIKES! The Rollie Pollie doesn't |    |  |
|    | seem nervous right now - but he  |    |  |
|    | does seem TICKLY!                |    |  |

ANGLE ON: The Rollie Pollie has crawled up Ari's arm and is now tickling his neck (not near his face). Ari can't help wiggle and giggle, <SFX: WIGGLE, GIGGLE WALLA> as little creature crawls down his other arm, he sets it gently on the ground.

|    |                                  |    |  |
|----|----------------------------------|----|--|
| 46 | ARI (CONT'D)                     | 46 |  |
|    | Whew! There ya go, little Rollie |    |  |
|    | Pollie.                          |    |  |

The Rollie Pollie starts trundling along with determination.

|    |                       |    |  |
|----|-----------------------|----|--|
| 47 | TITO                  | 47 |  |
|    | Where's it going now? |    |  |

|    |                              |    |  |
|----|------------------------------|----|--|
| 48 | ELINOR                       | 48 |  |
|    | Let's find out - follow that |    |  |
|    | Rollie Pollie!               |    |  |

**EXT. FOREST GLADE - WIDE**

As they follow, Elinor has to stop and start marching a couple of times to match the Rollie Pollie's slower pace, causing a series of gentle pile-ups with her friends <SF: OOF, WHOOPS, GIGGLE>.

|    |                                                                           |    |   |
|----|---------------------------------------------------------------------------|----|---|
| 49 | ARI                                                                       | 49 |   |
|    | The Rollie Pollie doesn't go very fast. Maybe it's because it's so small. |    | * |

|    |                                          |    |        |
|----|------------------------------------------|----|--------|
| 50 | OLIVE                                    | 50 |        |
|    | Plus it seems to be checking things out. |    | *<br>* |

ANGLE ON: The Rollie Pollie has stopped and is exploring an interesting rock covered in lichen with it's antennae.

|    |                                                   |    |  |
|----|---------------------------------------------------|----|--|
| 51 | ELINOR                                            | 51 |  |
|    | Oooh, you're right Olive. I think it's exploring. |    |  |

|    |                                                           |    |  |
|----|-----------------------------------------------------------|----|--|

|    | I wonder what things look like to a little Rollie Pollie. |    |  |

|    |                                                                                                           |    |  |
|----|-----------------------------------------------------------------------------------------------------------|----|--|
| 53 | ELINOR                                                                                                    | 53 |  |
|    | <GASP!> Let's find out. We can be Rollie Pollies too, and observe the world the way a Rollie Pollie does. |    |  |

Elinor and the others get down low.

LOW DOWN POV OF THE FOREST FLOOR: A little puddle, a patch of grass, a rock etc, look huge. Have fun designers! <SFX: WHOOOA WALLA>

|    |                                  |    |  |
|----|----------------------------------|----|--|
| 54 | SALLY                            | 54 |  |
|    | That puddle looks like an ocean. |    |  |

|    |                                                |    |        |

|    | Wow! This rock looks just like a MOUNTAIN! Climb it, Rollie Pollie, all the way to the TOP! |    |  |

|  |                                                                       |   |

SALLY (CONT'D)  
(realizing)  
I found STICKS!

\*  
\*

Sally gathers up some sticks she's found (NOT the one the ants are using). DESIGN NOTE: The puddle the ants are crossing is VERY small - the size of a hand.
