**SC 1 - EXT. CANTERLOT HIGH SCHOOL STEPS - DAY**

Sandalwood, Flash and Micro Chips are standing in front of a long piece of paper to be used for a banner, clearly at a loss as to what to do with it. Surrounding it are a variety of art materials: paint, glitter, markers, glue, etc.

Vice Principal Luna stands behind them.

1           LUNA  
I'm sure you'll come up with the  
PERFECT sign that lets the Crystal  
Prep kids feel welcome but also  
conveys that we are stiff  
competition.

2           ALL OF THEM  
Oh yeah sure/Totally/100%.

3           LUNA  
I'll be back in an hour to see what  
you've come up with.

They watch her leave from the corner of their eyes and then turn to each other quickly.

4           FLASH  
I got it. We should decorate it  
with the sheet music to my song,  
"Love in a Flash." It'll show them  
we're talented while welcoming  
them in with the universal language  
of music.

5           MICRO CHIPS  
Interesting point. But I was  
thinking we could paint a model of  
DNA. It shows we're smart but it  
invites them in with the very fiber  
of our being. Gives me chills.

6           SANDALWOOD  
You're both allllllmost there, but  
what we *should* do is portray peace  
through art. Om, jah, one love,  
bros.

7           FLASH  
(confused/annoyed)  
Love and peace?

8 SANDALWOOD  
(shrugging his shoulders,  
a little peeved)  
Dude, Love in a FLASH??

They both look at Micro Chips.

9 SANDALWOOD/FLASH  
DNA??

They look at each other and immediately DIVE for the art materials. Within seconds they are clawing past each other trying to paint, glue, glitter and draw in every direction at once.

Sandalwood is LEAPING across the banner and the glitter goes FLYING all over Flash's hair.

10 FLASH  
Watch the HAIR, man!

Micro Chips is in the middle of painting a chain of DNA when Flash DASHES past him with a paintbrush in hand and accidentally PAINTS ACROSS HIS FACE.

11 MICRO CHIPS  
Hey! You did that on PURPOSE!

Micro Chips trips and SPLATTERS GLUE all over the banner--over Sandalwood's peace signs and Flash's musical notation. They all lunge for the glitter that goes everywhere--on themselves and the banner.

12 SANDALWOOD/FLASH/MICRO CHIPS  
You're ruining my design!

Sandalwood starts to run off to get something but BUMPS into Flash. He trips and falls which makes Sandalwood fall, and they both end up rolling over each other in the glitter, glue and paint and BUMP into Micro Chips who was so immersed in his design he didn't see it coming. They have all fallen over now and are rolling on top of the design.

They scramble to their feet and look at the damage they did to their design.

13 MICRO CHIPS  
What did you do?? You painted all  
over my molecular structures!

14 SANDALWOOD  
Well how am I supposed to paint my  
spirit guide when there's DNA and a  
treble clef in the way???

15 FLASH  
I don't know! Maybe you should ask  
your spirit guide!

16 LUNA  
(clearing her throat)  
My oh my.

Too afraid to turn around at first, they drop their brushes to the ground. They slowly turn to face her and we pull back to see the banner: it's a crazy jumble of hippy, science and music themes.

17 MICRO CHIPS  
We're really--

18 LUNA  
Proud of yourselves I hope. This is  
beautiful!

19 FLASH  
It is?  
(quickly)  
I mean, it IS!

20 LUNA  
It's inspiring but still warm and  
welcoming. I love how your work is  
literally enmeshed. Truly excellent  
work, boys!

21 SANDALWOOD  
Thank you. This is jut what happens  
when you allow love to lead the  
way.

22 FLASH  
With song.

23 MICRO CHIPS  
Through the self-replicating  
material present in nearly all  
living organisms. It couldn't have  
been easier.

24 LUNA  
That's great to hear, because I'd  
like to see 5 more of these all  
around the school. By 3 PM?

Their mouths drop open but she doesn't notice because she's  
turned to leave.

25 LUNA (CONT'D)  
Thanks boys!

They look at each other, groan and walk off in different directions.
