EXT. EVERFREE FOREST – DAY

Sunset Shimmer, Rainbow Dash, and Sci Twi are ponies. Sunset explains how she figured out the pool was a portal... she remembered the Manticore from back in Equestria. So, she wasn't POSITIVE, but hey, worth a shot, right? So anyway, we should definitely spend a little time with the girls getting their “pony legs,” E.g., Rainbow Dash assumes she'll be able to fly naturally because after all, she's great at everything, duh. (Sci Twi: “Have you learned nothing? Skill takes hard work!”) Sunset agrees, like magic. Sci Twi: “I CAN DO MAGIC!?!?” She misfires a bunch of spells, almost frying Rainbow Dash in the process.

But fun times must come to an end, as they remember that their friends are in trouble. As Sunset tries to think of the right direction to get out of this maze-like forest... their old friend THE MANTICORE emerges from the portal on the Equestrian side, still hungry for the girls. (“This thing is relentless!” quips Rainbow Dash. “I like its style!”) This time, as ponies, the girls are able to “defeat” it, because Sci Twi comes up with a plan and Rainbow Dash respects it enough to follow it, but Sci Twi isn't afraid of letting her improvise when things go wrong: “I'll be bait!” and finally when it's in position, Sunset uses her unicorn magic to freeze the beast into a popsicle. They're safe!

And just then, wouldn't you know it, but they run into Fluttershy! She's been looking for the Manticore, that's why she's out here—he's been acting strange lately, disappearing a lot, and, wait... what are Twilight and Rainbow Dash doing out here with some pony who looks an awful lot like... Sunset Shimmer? Sunset: “Long story. Hey, our friends are in desperate need of help. Can you take us to see Princess Twilight?” Fluttershy looks from Sunset to SciTwi, like, “Ummm... Twilight is right here.” No matter how hard Sunset tries, this confusion can NOT be cleared up. Eventually we give up and **CUT TO:**

INT. PRINCESS TWILIGHT'S THRONE ROOM – LATER

Sunset has just finished explaining everything to Pony Princess Twilight, who wonders what this new, heretofore undiscovered stable portal means... what if there are more portals between their worlds? Or even portals to other worlds! “We can't take anything for granted anymore.” Sci Twi agrees. Pony Twilight is glad she agrees: “Got a good head on her shoulders.” They compliment each other for a while, and Sunset while hates to stop the love fest, their friends are SINKING IN THE MIDDLE OF THE OCEAN. Princess Twilight offers to help in any way she can.

So does Fluttershy, whose quiet offer to help gives SciTwi and Rainbow Dash an idea. It's meticulous and complicated... and you'd have to be crazy to try it...! Sunset realizes: "In other words... the kind of plan you could only come up with together." Off their mutual smiles, WE CUT TO:

EXT. MEGA-YACHT – LATER

The ship has practically sunk. For Diamond Tiara, nevermind that they're all probably going to be lost at sea forever; she scolds her cousin: "Daddy's gonna kill you!" They argue, while Pinkie Pie, Rarity, Applejack, and Fluttershy do the last few things they can to help save people and cram them into lifeboats, but it's all sinking too fast... they're doomed. BUT THEN: They're lifted out of the water by THE MANTICORE, flying, ridden by Sunset, SciTwi, Rainbow Dash, and a very-awkward pony-Fluttershy-as-human! The Manticore's cubs fly in formation behind her, lifting up everyone else and carrying them into the sky! (Pinkie Pie refuses to abandon her soufflé, but the chef, hanging by a Manticore claw, offers his hand and tells her, a la the end of Indiana Jones and The Last Crusade: "Pinkamena? Let it go." He's finally proud of her!). As they ride off into the Sunset, we end with SciTwi and Rainbow Dash, arms around each other, heroes to everyone! (As a final joke: Micro Chips thinks it's pretty weird, but Bulk Biceps comments it's just another day at CHS.)
