ONE OF THE GUYS

Premise by Nick Confalone

THEME: *Being friends means you are liked for who you are, not for what sweet magic you can do (cough, Discord, cough).*

The Mane 6 have an important event in Canterlot. At the train station, Twilight says goodbye to Spike, Applejack says goodbye to Big Mac, and Fluttershy says goodbye to Discord. Spike and Big Mac seem downright eager for Twi and AJ to get onto they train. When asked what they've got planned Spike just says "y'know... guy stuff." The girls roll their eyes and get on the train. Discord is curious about this "guy stuff." Spike and Big Mac briefly confer and decide that Discord can join their "sacred order of happenin dudes." He just needs to show up at the castle that night ready for some "crazy fun." Discord shows up and learns that guys night mainly consists of eating bad food and using the map in the throne room as the staging ground for a rousing game of OGRES & OUBLLIETES (a dungeons and dragons type game). Although he won't say anything, Discord worries that maybe he's not really adding anything to the night. After all, Big Mac supplied the food and Spike is the dungeon master for the game. Discord wants more than anything to be a valued member of the "happenin dudes". So when Spike wishes they had more food, Discord says that's easy and with a wave of his hand, a mountain of food appears. Spike and Big Mac are impressed and begin requesting other crazy stuff. Discord realizes that the reason they wanted him there is so that he could use his magic to make the night more fun! Discord keeps obliging bigger and bigger requests until finally Spike says he wants something REALLY crazy! Discord is happy to oblige and uses his magic to bring the OGRES & OUBLLIETES game to life! Spike worries that Ponyville could get demolished, so Discord places a magical ring around the castle: anything game related disappears as soon as it leaves the castle. But WITHIN the castle, game rules apply. Spike, Big Mac and Discord proceed to geek out. Spike casts a flaming sword spell, and a flaming sword appears in his hand. Big Mac fights giant orcs. Things are great until Spike casts a cancel out all magic spell. The spell works, cancelling out all magic in the castle, including Discords (whoops, guess he didn't think his spell through... crazy chaos god)! Now they can't turn the game off!! The only way to fix it is to get Discord OUT of the castle so he can get his magic back and make everything disappear! Discord feels like he's no use, all he is good for is his magic, without it, he can't do anything to help. After all, it's the only reason they wanted him there in the first place. Spike and Big Mac explain that the magic was fun, but they like Discord for who he is, not what he can do for them. That's what guy's night is all about! Spending time with friends! And with that, the trio work together to battle their way out of the castle, and Discord proves that even with no magic at all, he is an awesome friend. They finally get out, restore Discord's magic and shut the game down. The next day, the girls all come back from their trip to find the guys hanging out around the castle. Twi asks what they did while they were gone. Discord says "y'know... guy stuff."
