

My Little Pony – Season 8

801 New Character List

Brief characterization of different creatures:

Yak – “We’re great cause we say so.”

Dragon – They’re like proud warrior Klingons

Changeling – Understanding disenfranchised people. We get this is how the world is. We’ll try to accommodate it.

Griffin – Masks deep hurt by being a jerk. Me against the world.

Hypogriffin – New to land. Still getting their land legs. Think everything is great and swell. Oblivious to there even being a conflict.

New Characters:

Male Hypogriffin – literal fish out of water, super gullible, overly excited, just happy to be included on thing since before they were just swimming around eating kelp, easy to be made fun of/prank/tease, like an Amish boy who’s just left the farm.

Male Griffin – acts like a cool kid to mask his sensitivity, over everything, a rebel rouser, likes pranking and telling the Hypogriffin false things.

Female Dragon – A Slytherin. Super proud, smart, and has a chip on her shoulder.

Female Yak – Super clumsy. Proud to be a Yak but can’t say why. Not as smart as the dragon.

Female Changeling – Super shy, quiet, and is super grateful to be here. A teacher’s pet. When she lets loose, she’s a great impersonator.
