Teaser

- Previously on My Little Pony...

Act 1

- TS is totally depressed (in a funny way).
- Mane 5 + Spike try to cheer her up, never seen her this bad
 - o Rarity: “Made you a dress”, TS: “Great dress for someone who knows how to run a school”. SG: “Not everything can be solved with dresses and cupcakes”.
- SG tells TS: “Stand up for what you believe in. If the rules are wrong, write new ones. If your reality isn’t working, create a new paradigm.”
 - o Calls back to SG making her own rules (going back in time, creating an equal sign village, etc. not positive examples, but she did accomplish what she wanted)
- TS inspired. We are doing this!
 - o Mane 5: No way. They liked the school being shut down.
- TS apologizes. I did it wrong. We’ve never done things by the rules. Need to go with our strengths.
 - o Two problems: No students. EEA won’t accredit us.
- TS: You get the students back, I’ll handle the EEA.
 - o How’re we going to get students back? Don’t know, but we’ll make it happen (common theme of not knowing how to do something, but still trying/let’s figure it out together)
- Mane 5 go to convince leader of each nation
 - o Students are gone
 - o They’re all gone!

Act 2

- Students are missing
- International incident – where have the kids gone to?
- Kids have made their own school in the Everfree forest (maybe at the Two Sister’s ruins, not a treehouse)
- Student ponies gets supplies, e.g. lots of cupcakes. They’re just “really hungry”.
 - o Mane 5 ask each other, “what would you do if we couldn’t see each other?”, PP – “I don’t know, but we’d have lots of cupcakes”...realization that this pony student got lots of cupcakes!
- Mane 5 find them in peril

Act 3

- Mane 5 saves the students

- Dragon – “No dragon has done that. That was awesome”.
- Mane 5 apologizes to students.
 - o Come back with us. We’ll fix this. How? We don’t know, but let’s work together and figure it out.
- Return to school
 - o Delegates arrive, EEA show down.
- School is for every creature of all ages. Don’t get it isn’t accredited.
 - o Used to think not being accredited was the worst thing (would get shivers).
 - o Owns the word and even says, “We’re not accredited!” (eye twitch).
- Song - TS’s manifesto
 - o Song about friendship through examples
 - o Realizing that letting the students learn on their own helped them to create friendship.
